NYS ID&R/MIS2000 Program

December 2016

ECA Assessment 2016-17

- Enter the assessment on the Test screen of the Student Side in MIS2000.
- **NEW:** There should be a test line for the **Pre-Test** and a test line for the **Post-Test**.
- The score can range from 0-129.
- The test must be “linked” to the enrollment line in which the Pre-Test/Post-Test was done. Example: if the Pre-Test was given in October 2016, it will be linked to enrollment of 09/01/16. If the Post-Test was given in July 2017, it will be linked to enrollment of 06/2*/17.
- **NEW:** You do not need to enter the Hours since Pre-Test on the test panel. The hours that will be considered are the number of hours tutors helped the students with **School Readiness** until the student received the Post-test. Hence, make sure your tutors are recording and providing you the correct number of school readiness hours that they have given to Pre-K students after the Pre-Test.
- **NEW:** You also need to record an **interpretation for the Pretest and Posttest**. The interpretation ranges from 1-4 (similar to the Interpretation for NYS Assessment tests where 4 is the highest possible score).

MSIX Field: Medical Alert

- ⇒ The primary purpose of this field is to flag the student so the appropriate staff in the receiving State can be informed that the student is/has been facing a medical situation.
- ⇒ This flag should alert the receiving State to ask follow-up questions, obtain the necessary information and arrange or help facilitate follow-up health services.
- ⇒ It can be None, Acute (short term) and Chronic (long term)
- ⇒ This data is collected on the Intake Form and the Mid-Year Summary Form and needs to be recorded on the Student Side/School History tab on MIS2000

Preparing Data for CSPR: Part 2 of 2

- Check 2016 Summer enrollments to make sure all students that were served are accurately counted
- All eligible students should have a Grade, Enrollment type and Withdraw date
- Check that students that drop out of school during the last performance period have “Grade” as the grade in which they drop out and “Still In School” as DO.
- In School students should have the name of their school, not the CSD. For example, a student on Albion CSD would have Ronald Sodoma Elementary School as facility for both, Academic and Summer Enrollments.
- Make sure all eligible students for last performance period have an enrollment line. Pay special attention to COEs that were done at the end of summer/beginning of September
- Make sure you have entered all services for performance period 2015/16. Run Missing SP Codes report to check this information.
- After 1/20/17 you cannot add enrollment lines or change information regarding services or needs assessment

Friendly Reminder:

- All forms related to SDP (OSY Profile, Intake forms, ELA/Math EasyCBM Assessment Dates, graduation plans date for Level 3 and 12th Grade and PLP dates for Level 2 OSY students) for September 1st-November 30 entered on MIS2000 by 12/15/16
- Graduation Plan: Grade 11 students (Levels 2 and 1) must have a completed graduation plan by 12/16/16
- Consolidated Performance Report (Part I and II) data checklists need to be corrected on MIS2000 by 12/28/16
- 12/30/16 is the due date to complete the data security training and MSIX training with METS staff
- EasyCBM Winter Assessment windows opens 01/01/17 to 02/17/17
- CSPR forms checklists and forms completed and sent to ID&R Office by 01/13/17
- Last day to make any changes or add enrollment lines for performance period 09/01/15-08/31/16 is **01/20/17**
- All services from the Mid-Year/Summary form (September 1 to December 31) entered on MIS2000 by 01/27/17
