EasyCBM Spring Assessment

Who should be tested during the EasyCBM Spring Assessment Benchmark?

- Any Level 3 student that received a pre-test (Fall or Winter) and ANY instruction on ELA/Math
- Only assess in the target area that student received instruction
- No Instruction=No post-test. If a student did not receive any instruction from MEP staff, you do not need to administer the post-test
- ELL students: If the METS decided to enter a zero (0) as a pre-test based on assessments such as the NYSELAT, the METS is still required to administer a post-test. Directors: for more information, refer to the *English Learners Annual EasyCBM administration doc*
- Data Specialists do not need to enter any EasyCBM tests in MIS2000 since the ID&R Office will export test scores directly
- If you need more information, please refer to [SDP Decisions and Processes](#)
- If you have any questions, please call Odilia or Mary Anne Diaz

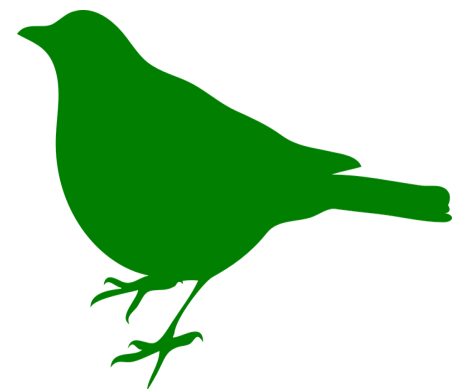

Needs Assessments

English Language Learner

NYS MEP tracks how many eligible students are English Language Learners (Limited English Proficiency) in order to assess the needs of students and determine PFS

Grades K-12 and UG– The school is the entity making this determination based on testing results with the NYSITELL & NYSESLAT

Preschool and OSY– METS staff can determine if the student has such need
